MINUTES
of a
Public Hearing for a Proposed
CLAYTON, ILLINOIS ZONING ORDINANCE
7:00 p.m., November 12, 1987

A public hearing advertised in the Clayton Enterprise on October 27, 1987 was called to order at 7:05 P.M. by the Clayton, Illinois Zoning Commission to hear comment on a draft ordinance proposed for submission to the Clayton Village Board of Trustees by the Zoning Commission. Copies of the ordinance as proposed were available to the public at the Community Building after the public notice publication date.

Other than Village Trustees and members of the Zoning Commission, one member of the general public attended the hearing. A comment suggested that boarding houses, sheltered care facilities and nursing homes be included as permitted special uses in the Residential Districts. The Village Board President asked Zoning Commission members present if the phrase "and boarding homes, etc." could be added to the article concerning "additional uses" at Article 15, Section 1, Number 8., to read as follows:

"8. Hotels and motels, and boarding houses, sheltered-care homes, and nursing homes." (Added phrase underlined.)

There were no objections to this change.

Tom Fentem of the The Two Rivers Regional Council of Public Officials was directed to amend Article 15, Section 1, Number 8. Members of the Zoning Commission present voted to transmit the proposed ordinance with the suggested change to the Village Board of Trustees.

In answer to a question from Fentem, Village President Ronald Huber said that the village attorney had been consulted. The attorney's opinion was that the ordinance as proposed would probably be legally valid.

The public hearing was adjourned at 7:40 P.M.

Every rule or regulation, every amendment or repeal thereof, and every order, requirement, decision, or determination of the Board shall be filed immediately in the office of the Board and shall be a public record. The Board shall adopt its own rules of procedure not in conflict with this ordinance or with the Illinois statutes in such case made and provided.

The building inspector shall transmit to the Board all of the papers constituting the record upon which the action appealed from was taken.

An appeal shall stay all proceedings in furtherance of the action appealed from, unless the building inspector certifies to the Board of Appeals after the notice of appeal has been filed with him, that a stay, in his opinion, would cause imminent peril to life or property, in which case the proceedings shall not be stayed by other than a restraining order, which may be granted by the Board of Appeals or by a court of record on application, on notice to the building inspector and on due cause shown.

The Board shall select a reasonable time and place for the hearing or the appeal and give due notice of the hearing to the parties and shall render a decision on the appeal without unreasonable delay. Any person may appear and testify at the hearing, either in person or by duly authorized agent or attorney.

When a property owner shows that a strict application of the terms of this ordinance relating to the use, construction, or alteration of buildings or structures or the use of land imposes upon him practical difficulties or particular hardship, then the Board may make such variations of the strict application of the terms of this ordinance as are in harmony with its general purpose and intent, when the Board is satisfied under the evidence heard before it, that a granting of such variation will not merely serve

as a convenience to the applicant, but is necessary to alleviate some demonstrable hardship or difficulty so great as to warrant a variation from the comprehensive plan by this ordinance created and set forth, in the following instances:

1. To permit the extension of a district where the boundary line of a district divides a lot of single ownership as shown on record.
2. To permit the reconstruction of a nonconforming building which has been destroyed or partially destroyed by fire or act of God, where the Board shall find some compelling public necessity requiring a continuance of the nonconforming use, and in no case shall such a permit be issued if its primary function is to continue a monopoly.
3. To make a variance where, by reason of an exceptional situation, surroundings, or condition of a specific piece of property, or by reason of exceptional narrowness, shallowness, or shape of a specific piece of property of record, or by reason of exceptional topographical conditions the strict application of any provision of this ordinance would result in peculiar and exceptional practical difficulties or particular hardship upon the owner, provided such relief can be granted without substantial detriment to the public good and without substantially impairing the general purpose and intent of the comprehensive plan as established by the regulations and provisions contained in this ordinance.
4. To interpret the provisions of this ordinance where the street layout actually on the ground varies from the street layout as shown on the map fixing the several districts, which map is made a part of this ordinance.
5. In considering all appeals and all proposed variations to this ordinance the Board shall, before making any variation from the ordinance in a specific case, first determine that the proposed variation will not impair an adequate supply of light and air to adjacent property, or unreasonably increase the congestion in public streets, or increase the danger of fire or endanger the public safety, or unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals, or welfare of the inhabitants of the village of Clayton. The concurring vote of four (4) members of the Board shall be necessary to reverse any order, requirement, decision, or determination of the building inspector or to decide in favor of the applicant any matter upon which it is authorized by this ordinance to render decision, or to effect any variance.

The Board of Appeals does not have the power or authority to alter or change the zoning ordinance; such power and authority is reserved to the Village Board.

Section 5 Notice

The Board shall make no recommendation except in a specific case and after a public hearing conducted by the Board. A notice of the time and place of the hearing shall be published in a paper of general circulation in the Village of Clayton at least once, not more than thirty (30) days or less than fifteen (15) days previous to the hearing. Such notice shall contain the particular address or location of the property for which the variation or other ruling by the Board is sought, as well as a brief description of the nature of the appeal, and of what the proposed variance consists.

Section 6 Miscellaneous

No order of the Board permitting the erection or alternation of a building shall be valid for a period of longer than six (6) months, unless the use is established within such period, provided that where such use as permitted is dependent upon the erection or alteration of a building, such order shall continue in force and effect if such building permit for the erection or alteration is obtained within such period and the erection or alteration is started and preceeds to completion in accordance with the terms of the permit.

The Village Clerk shall keep careful and comprehensive records of applications, of permits issued, of certificates issued, of inspections made, of reports rendered, and of notices or orders issued. The Village Clerk shall retain on file copies of all papers in connection with building work so long as any part of the building or structure to which they are related may be in existence.
2. All such records shall be open to public inspection at reasonable hours, but shall not be removed from the office of the Village Clerk.

Section 3 Plans

Applications for permits shall be accompanied by drawings of the proposed work, drawn to scale, including floor plans, sections, elevations, and structural details, as the building inspector may require.

Section 5 Amendments

Nothing in this section shall prohibit the filing of amendments to an application or to a plan or other record accompanying same, at any time before the completion of the work for which the permit was sought. The amendment, after approval, shall be filed with and be deemed a part of the original application.

Section 6 Completion of Existing Buildings

Nothing in this ordinance shall require changes in the plans, construction, or designated use of a building for which a lawful permit has been previously issued or which has been otherwise lawfully authorized, and the construction of which shall have begun within ninety (90) days after this ordinance becomes effective and for which the entire building shall be completed, as authorized, within two (2) years.

Section 7 Action on Application

It shall be the duty of the Zoning Board to examine applications for permits within a reasonable time after filing. If, after examination, there is found no objection to the application and it appears that the proposed work will be in compliance with the applicable laws and ordinances, the Zoning Board shall approve the application and issue a permit for the proposed work as soon as practicable. If examination reveals otherwise, the Zoning Board will reject the application, noting its findings in a report to be attached to the application and delivering a copy to the applicant.

Section 8 Approval in Part

Nothing in this section shall be construed to prevent the Zoning Board from issuing a permit for the construction of part of a building or structure before the entire plans and detailed statements of the building or structure have been submitted or approved, if adequate plans and detailed statements have been presented for the same and have been found to comply with this ordinance.

Section 9 Conditions of the Permit

1. All work performed under a permit issued by the Zoning Board shall conform to the approved application and plans, and their approved amendments.
2. The location of all new construction as shown on the approved plot diagram or an approved amendment to it, shall be strictly adhered to.

3. It shall be unlawful to reduce or diminish the area of a lot or plot of which a plot diagram has been filed and has been used as the basis for a permit, unless a revised plot diagram showing the proposed change in conditions shall have been filed and approved. However, this shall not apply when the lot is reduced by reason of a street opening or widening or other public improvement.

Section 10 Signature to Permit

Every permit issued by the Zoning Board under the provisions of this ordinance shall have the building inspector's signature affixed to it, but this shall not prevent him from authorizing a subordinate to affix his signature.

Section 11 Limitation

Section 12 Posting of Permit

1. A copy of the permit shall be kept on the premises open to public inspection during the prosecution of the work and until its completion.

3. The building inspector shall be given at least twelve (12) hours notice of the starting of work under a permit.
